</table>
| 1 | LabSim | 1. Take the LabSim Security+ Practice Exam  
2. Complete LabSim Module 1.0 Introduction  
3. Study correlating materials in the e-text |
| 2 | LabSim | 1. Complete LabSim Module 2.0 Access Control and Identity Management  
2. Study correlating materials in the e-text  
3. Complete LabSim Module 3.0 Cryptography  
4. Study correlating materials in the e-text |
| 3 | LabSim | 1. Complete LabSim Module 4.0 Policies, Procedures, and Awareness  
2. Study correlating materials in the e-text  
3. Complete LabSim Module 5.0 Physical Security  
4. Study correlating materials in the e-text |
| 4 | LabSim | 1. Complete LabSim Module 6.0 Perimeter Defenses  
2. Study correlating materials in the e-text  
3. Complete LabSim Module 7.0 Network Defenses  
4. Study correlating materials in the e-text |
| 5 | LabSim | 1. Complete LabSim Module 8.0 Host Defenses  
2. Study correlating materials in the e-text  
3. Complete LabSim Module 9.0 Application Defenses  
4. Study correlating materials in the e-text |
| 6 | LabSim | 1. Complete LabSim Module 10.0 Data Defenses  
2. Study correlating materials in the e-text  
3. Complete LabSim Module 11.0 Assessments and Audits  
4. Study correlating materials in the e-text |
| 7 | Transcender Practice Exam | 1. Review study materials  
2. Take the Transcender Practice Exam  
3. Use the mapping document to study areas of weakness |
| 8-9 | Final Steps | 1. Complete the CompTIA SY0-401 Security+ exam |
